DETAILED ACTION

Response to Argument

1. An initialed and dated copy of Applicant's IDS form 1449 submitted on 07/13/2005 is attached along with this final office action.
2. Applicant's remarks and amendments filed on 04/29/05 is received and entered into record.
3. Claim 2, 4, 6, and 12 rejection is withdrawn since the claims are cancelled.

Allowable Subject Matter

4. Claims 1, 3, 5, 7-11, and 13-18 are allowed.
5. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior arts teach systems that have similar functions as disclosed. For instance, Bell (US 5,057,754) discloses a system and an apparatus for controlling a windshield wiper that has most of the apparatus features and some of the methods disclosed in this application. However, none of the prior arts alone or in combination showed or taught the specific method/system that is found in the independent claim 1. Specifically the system of:

"wherein the clock signal provider receives the wiper position signal and is configured to output the clock signal when the wiper rotates by a predetermined angle."

Regarding claim 7, none of the prior arts alone or in combination showed or taught the specific method/system that is found in the independent claim 7. Specifically the system of:

"wherein the clock signal provider receives the wiper position signal and is configured to output the clock signal when the wiper rotates by a predetermined angle...wherein the wiper control unit determines the rain droplet amount level using the counted values that are acquired during 3 strokes of the wiper."

Regarding claim 11, none of the prior arts alone or in combination showed or taught the specific method/system that is found in the independent claim 11.

Specifically the method of:

"...controlling a wiper, the wiper speed level is regulated based on the rain droplet amount level and the initial wiper speed level, and the wiper is controlled to operate a predetermined number of times in response to the regulated wiper speed level..."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Remarks

6. Fourteen claims are allowed.
